mWing: GRL PWR edition

Access Pro: Brick edition

“What is the ideal access control system for our customers?” This question is at the heart of our developers' work.

To broaden their horizons, they sometimes imagine very special target groups: long-legged blondes, grown-up children, bicycle racers and star warriors with breathing difficulties. Do you find these exercises appealing?

**MPB full-height turnstile: Racing edition**

**Access Pro: May the 4th edition**
