

Declaration of Quality

The manufacturer MAGNETIC AUTOCONTROL GmbH this is to certify that the delivered product:

Description	Momentum series
Typ	mGo; mLux;mPass; mBorder
From Serial-No.	all

is in accordance with the internal quality standards, especially the statistical values for:

MTBF (Mean Time Between Failure)	for mechanical components:	100.000 hours
MCBF (Mean Cycle Between Failure)	for mechanical components :	10.000.000 cycles
MTTR (Mean Time To Repair)	for mechanical components	30 minutes
MTBF (Mean Time Between Failure)	for electronical components:	50.000 hours
MCBF (Mean Cycle Between Failure)	for electronical components:	10.000.000 cycles
MTTR (Mean Time To Repair)	for electronical components:	30 minutes

- duty cycle: S1 100% (EN60034-1)

The statistical values are based on lifetime tests and / or calculations and are valid for the use under the operational conditions specified in the instruction manual.
